

City of Sandusky Fire Department

Monthly Report
September 2014

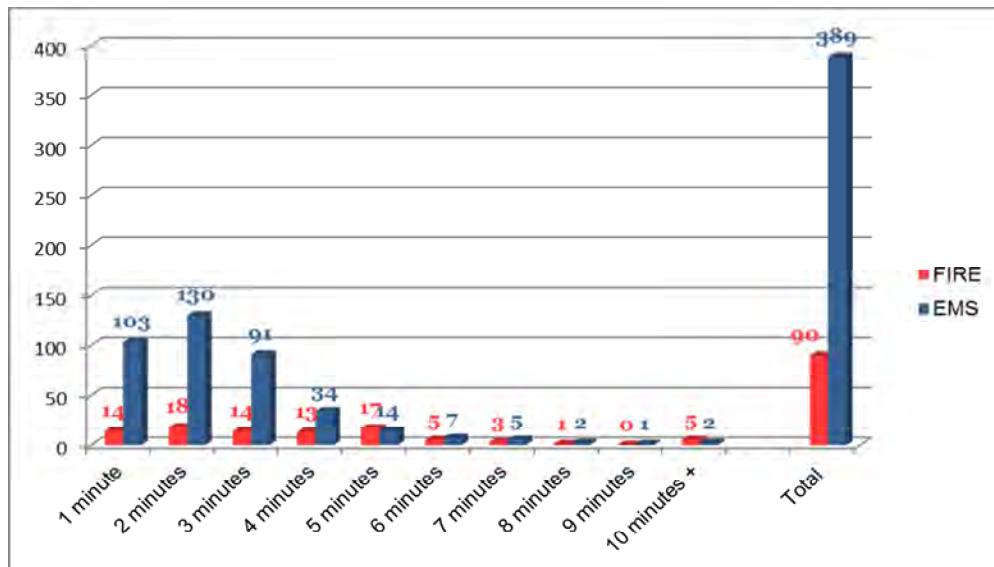

District Statistics

There were 479 responses in September. 61% percent of all responses were in District 1. Responses in District 3 and District 7 were 24% and 15% respectively.

Response Time

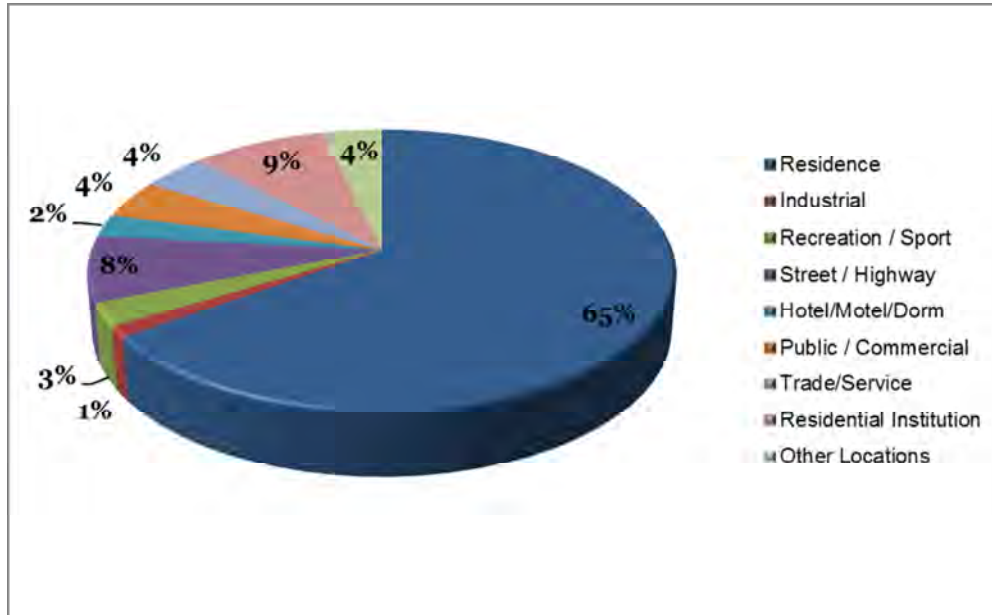

The average response time for fire emergencies was 4 minutes and 12 seconds. The average response time for EMS emergencies was 2 minutes and 55 seconds.

The Sandusky Fire Department responded to 74% of fire emergencies within four minutes and 92% of EMS emergencies within four minutes. This calculates to 86% of all emergency calls within four minutes.

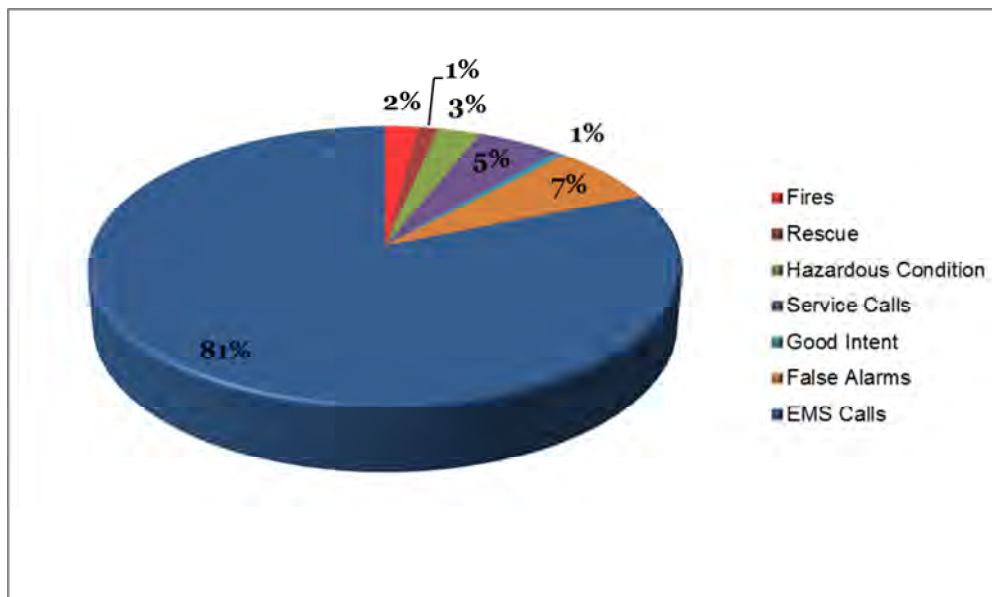

Response by Location

In September, 74% of all emergency responses were to residential occupancies (residences, nursing homes and residential institutions). Commercial buildings, recreational occupancies and streets and highways totaled 15%.

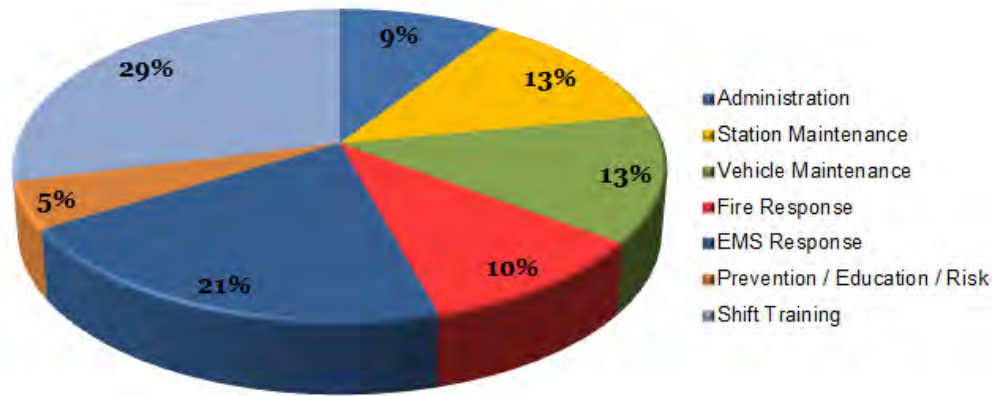

Incident Type

Ambulance service continues to be the highest requested service at 81%. Structure fire activity was 2% of all emergent activity. False alarms represented 7% of all September emergent activity. There was \$26,600 in fire loss.

Activity

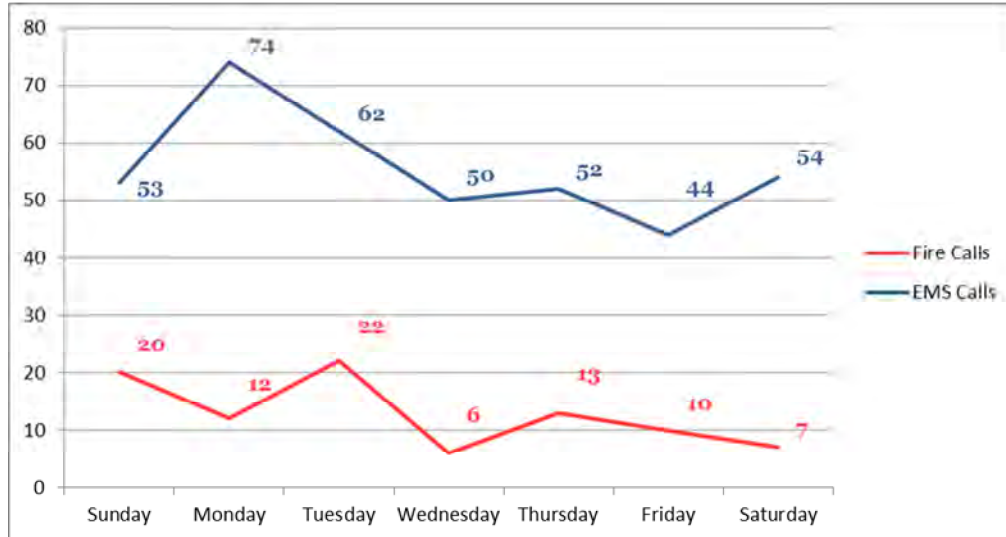

31% percent of all September activity was emergency response. Station and vehicle maintenance was 26% and training was 29%.

Training Analysis

39% of September training was rescue training with the focus on Hazardous Materials and Technical Rescue. 28% was fire training with the focus on fire ground operations. 13% of training focused on EMS and the remaining 20% percent focused on physical fitness.

Response by Day-of-Week
