CITY GREENHOUSE 620 Elm Street

Since 1908, the City of Sandusky has operated a greenhouse for the purpose of growing plants to beautify the City. The City of Sandusky Horticultural Services Division received the prestigious 2004 "America in Bloom" Award.

City staff is also charged with the installation and upkeep of elaborate holiday displays including over 30,000 miniature lights and dozens of large displays.

The value of the greenhouse staff extends further into non-horticultural areas as well. Staff maintains four large fountains as well as irrigation systems that have over sixty zones with hundreds of sprinkler heads.

In Washington Park, the City has continued the century-old tradition of utilizing tropical plants mixed with colorful annuals to create stunning visual effect.

Commemorative floral mounds, located in each of the parks' quadrants, have been a focal point and a source of community pride for more than 100 years.

"Celebration Mound" received Honorable Mention in the category of "Management Innovation - Special Projects" by the Ohio Parks & Recreation Association. To plant these mounds, the greenhouse staff propagates more than 100,000 foliage plants over the fall and winter months.

The Greenhouse offers the public a reasonably priced plant rental program. Palms and ferns are available for special events such as weddings or banquets. For more information or to place a rental order, call the City of Sandusky at 419.627.5879 or email cityrec@ci.sandusky.oh.us
