

Direct Energy is the city's current natural gas supplier for residents enrolled in the Direct Choice program and Buckeye Energy Brokers is our Aggregator/Program Manager.

Effective with the December, 2011 billing cycle, participants in the city's program are paying a fixed price of \$.6181/Ccf, excluding taxes and transportation charges, through November, 2012. This rate is \$.6081/Ccf for eligible Seniors (65 yrs or older).

When comparing offers from other suppliers, consumers are encouraged to read the fine print to be certain they are comparing "apples to apples" as there are taxes and transportation charges added to the basic rate. It is also wise to make sure there are no early termination fees or switching fees associated with changing your supplier.

The Public Utilities Commission of Ohio updates their Apples to Apples Comparison charts each month and consumers are encouraged to check these rates on a regular basis.

To enroll or to obtain additional information about the city's program, contact Direct Energy at 1.866.803.4618.
