

FIRE HAZARD HOUSE

Call or email the Sandusky Fire Department [Fire Prevention Bureau](#) at 419.627.5823 for a demonstration with your school or organization.

The Fire Hazard House is an innovative and riveting teaching aid for our safety conscious community. The audience participates in transforming the house from hazardous to safe through the use of 3D parts, flips, tokens and stick-on illustrations. Adults highly impressed. Kids six and older are captivated.

Known to have one of the highest learning and remembering factors.
